

# Donia Borge

Software Engineer

## Profile

I am a Software Engineer with over 3 years of professional experience in developing, testing, and debugging software applications. I have a track record of successfully designing and developing complex software systems with a focus on quality, scalability, and performance. I'm highly skilled in C++, Java, and Python programming, as well as the Microsoft .NET framework. I'm also familiar with a variety of database technologies, such as Oracle and MySQL. I'm a quick learner and highly motivated to stay up to date on the latest software development tools and technologies. In addition, I'm an excellent communicator and team player with a strong work ethic.

## Employment History

### Software Engineer II at Microsoft Corporation, NV

Oct 2022 - Present

- Developed a new software feature for Microsoft Outlook that increased user efficiency by 20%. The feature enabled users to quickly access their emails and calendar events with a single click.
- Collaborated with a team of 5 engineers to improve the performance of a web application used by millions of customers. As a result, the application's loading time decreased by 40% and its stability increased by 30%.
- Automated the deployment process of a software product, reducing the time required for the task by 50%. This allowed the team to focus more resources on developing new features and improving existing ones.

### Software Engineer I at Zappos.com, Inc., NV

Aug 2020 - Sep 2022

- Developed a new product feature that increased customer engagement by 25%, resulting in an additional \$1.5M in revenue for Zappos.com, Inc.
- Developed a payment processing system that reduced transaction time by 50%, saving the company \$200K in operational costs.
- Created a customer loyalty program that resulted in a 5% increase in customer retention, leading to an additional \$500K in annual revenue.

## Education

### Bachelor of Science in Software Engineering at University of Nevada, Reno

Aug 2015 - May 2020

Relevant Coursework: Programming, Data Structures and Algorithms, Computer Organization, Operating Systems, Database Systems, Software Design and Development, Computer Networks.

## Certificates

### Certified Ethical Hacker (CEH)

Jan 2022

### Certified Information Systems Security Professional (CISSP)
