MARVIN REL

Technical Program Manager

marvin.rel@gmail.com
(730) 385-8949
San Francisco, CA

PROFILE

I am an experienced Technical Program Manager with over 3 years of experience in program management, project management, and software development. I have a proven track record of successfully managing complex projects and programs. My strengths include excellent communication and interpersonal skills, strong technical knowledge, and the ability to manage multiple tasks at once. I have experience leading teams through the full software development life cycle and have successfully managed projects from conception to completion. I have experience working with agile and waterfall methodologies and am adept at using project management software tools such as JIRA, Asana, and Trello. My experience also includes conducting stakeholder meetings and developing reports to keep stakeholders informed. I am passionate about delivering successful programs and projects on time and within budget.
