

SIARA CAMARILLO

Metal Fabricator

siara.camarillo@gmail.com

(272) 078-8934

1234 Magnolia St, Baton Rouge, LA 70802

PROFILE

Dedicated Metal Fabricator with 1 year of experience in the industry, skilled in various fabrication techniques and equipment operation. Proficient in reading blueprints, maintaining safety protocols, and producing high-quality metal components. Quick learner with a strong work ethic, eager to contribute to a team environment and continuously develop expertise in the field.

SKILLS

MIG Welding

TIG Welding

Plasma Cutting

Sheet Metal Bending

CNC Machining

Laser Cutting

Brazing

LANGUAGES

English

Mandarin

HOBBIES

Creating metal sculptures

Restoring vintage cars

Customizing motorcycles

EMPLOYMENT HISTORY

● Metal Fabricator at Metal Fabricators of Louisiana, LA

Feb 2023 - Present

- Successfully completed a large-scale fabrication project for a major industrial client in Louisiana, delivering 50 tons of high-quality metal components within the tight deadline of six months, contributing to a 20% increase in company revenue.
- Expertly led a team of 10 fabricators in the design, production, and installation of custom metal structures for a commercial building project, resulting in a 15% reduction in project completion time and increased client satisfaction.
- Implemented new welding techniques and safety protocols, reducing workplace accidents by 30% and increasing overall productivity by 10%.
- Streamlined the fabrication process for a series of complex metal assemblies, cutting production time by 25% and reducing material waste by 15%, saving the company over \$50,000 in costs.

● Junior Metal Fabricator at Bollinger Shipyards, LA

Jul 2022 - Dec 2022

- Successfully fabricated and installed metal components for a 154-foot Fast Response Cutter (FRC) project, contributing to the on-time delivery of 6 vessels in 2019.
- Increased production efficiency by 15% through the implementation of lean manufacturing techniques, resulting in reduced lead times and material waste.
- Achieved a 98% first-pass yield rate on welds during the construction of two Offshore Support Vessels (OSVs), demonstrating high quality workmanship and adherence to industry standards.
- Collaborated with a team of 20 fabricators to complete a major dry-dock repair project in just 3 weeks, reducing downtime for the client by 25%.

EDUCATION

Diploma in Metal Fabrication and Welding Technology at Louisiana Technical College, LA

Aug 2018 - May 2022

Relevant Coursework: Blueprint Reading, Metallurgy, Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), Flux Cored Arc Welding (FCAW), Oxy-Fuel Cutting and Welding, Plasma Arc Cutting, Metal Fabrication Techniques, and Welding Safety and Inspection.
