

Rusty Riveiro

Business Systems Developer

Profile

I am a Business Systems Developer with over 3 years of experience in designing, developing, and maintaining business systems for various organizations. I have a strong working knowledge of databases, software development, and web design. I am an expert in developing user interfaces, creating reports, and coding applications. With my experience and technical skills, I am confident that I can help businesses improve their operational efficiency. I am also proficient in project management, debugging, and problem-solving. I am passionate about finding and implementing solutions that help businesses succeed.

Employment History

Senior Business Systems Developer at Oracle, CA

Nov 2022 - Present

- Developed and implemented a new business system for Oracle's Human Resources department, resulting in a 40% reduction in manual data entry and a 30% increase in efficiency.
- Led a team of 6 developers in developing an enterprise-level system for tracking customer orders, resulting in an 85% decrease in customer order processing time.
- Created a new reporting system for Oracle's sales data, resulting in a 50% increase in accuracy and a 25% reduction in report generation time.

Business Systems Developer at Salesforce, CA

Aug 2020 - Sep 2022

- Developed and deployed a Salesforce Lightning-based app that enabled Salesforce users to access real-time analytics, resulting in a 25% increase in sales productivity.
- Implemented automated processes that streamlined the onboarding process for new Salesforce users, reducing the average onboarding time by 40%.
- Created an API integration with a third-party application, allowing Salesforce customers to access data and reports without manual effort, resulting in a 60% reduction in customer service response times.
