Marye Rorie

Middleware Administrator

Profile

Middleware Administrator with 2 years of experience in managing, configuring, and troubleshooting various middleware platforms. Proficient in ensuring optimal performance, security, and availability of enterprise applications. Demonstrated ability to work in fast-paced environments, collaborate with cross-functional teams, and implement process improvements. Proven expertise in middleware technologies, such as IBM WebSphere, Oracle WebLogic, and Apache Tomcat. Seeking opportunities to contribute to the stability and growth of a dynamic organization.

Employment History

Middleware Administrator at Cerner Corporation, MO
May 2023 - Present

- Successfully managed the integration of over 50 applications across multiple platforms, resulting in a 20% increase in overall system efficiency and a 15% reduction in support tickets.
- Streamlined the deployment process for middleware updates, reducing downtime by 30% and increasing team productivity by 25%.
- Implemented a comprehensive monitoring solution that improved system performance by 40% and reduced the number of critical incidents by 50%.
- Led a team of 10 administrators in a major infrastructure upgrade project, completing the work 2 weeks ahead of schedule and under budget by 10%.
