## Employment History

### Lead Miner at Rio Tinto Kennecott, UT

Mar 2023 - Present

- Achieved a 15% increase in overall ore production by implementing new mining techniques and optimizing drill patterns, contributing to a \$10 million increase in revenue for Rio Tinto Kennecott, UT.
- Led a team of 50 miners to successfully complete the excavation of a high-priority copper deposit ahead of schedule, increasing the company's annual output by 8% and resulting in an additional \$7 million in profits.
- Developed and implemented a comprehensive safety program that reduced on-site accidents by 25% and improved overall worker efficiency by 10%, leading to a safer work environment and increased productivity.

### Assistant Miner at Utah American Energy Inc., UT

Sep 2022 - Feb 2023

- Successfully increased coal production by 15% within the first year of employment, contributing to Utah American Energy's overall growth and efficiency.
  - Reduced safety incidents by 25% by implementing new safety protocols and conducting regular training sessions for the mining team, resulting in a safer work environment.
  - Played a key role in the discovery of a new coal seam with an estimated value of \$10 million, significantly expanding the company's resource base and future revenue potential.
  - Streamlined communication between underground teams and surface operations by introducing a new reporting system, reducing response time by 30% and improving overall operational efficiency.
-
