## PROFILE

Meticulous Mold Maker with 4 years of experience in the design and fabrication of high-quality molds, seeking to leverage strong skills in precision machining, tooling, and injection molding. Adept at collaborating with cross-functional teams to ensure timely delivery of cost-effective and efficient molding solutions. Proficient in CAD/CAM software, material selection, and troubleshooting, with a focus on continuous improvement and process optimization.

## EMPLOYMENT HISTORY

- Mold Maker at Wyoming Mold & Tool Corp, WY**  
Mar 2023 - Present
  - Successfully designed and fabricated over 50 high-precision molds for clients in the automotive and aerospace industries, resulting in a 20% increase in company revenue.
  - Streamlined the mold-making process by implementing new technologies and techniques, reducing production time by 25% and increasing overall efficiency.
  - Led a team of 5 junior mold makers, providing mentorship and guidance, which contributed to a 15% reduction in production errors and increased overall product quality.
  - Collaborated with the engineering team to develop and implement a new mold testing process, resulting in a 30% reduction in mold defects and increased customer satisfaction.
- Mold Maker Apprentice at Sheridan Precision Mold, WY**  
Aug 2019 - Feb 2023
  - Successfully completed 50+ complex mold projects within the first year of apprenticeship, contributing to a 15% increase in production efficiency at Sheridan Precision Mold, WY.
  - Streamlined the mold making process by implementing an advanced CAD software, resulting in a 20% reduction in design errors and a 10% improvement in overall project turnaround time.
  - Collaborated with a team of experienced mold makers to develop and execute a comprehensive training program for new apprentices, leading to a 25% increase in their skill development and productivity within the first six months.

## CERTIFICATES

**Certified Mold Maker (CMM)**  
Jan 2022

**Certified Master Tool and Die Maker (CMTDM)**  
Jan 2020
