Phoenix, AZ

As a Network Security Technician with over 2 years of experience, I have extensive knowledge of network security, as well as experience in network installation, configuration, and troubleshooting. I have a solid understanding of network protocols, firewalls, and intrusion detection systems. I am adept at identifying, analyzing, and resolving network security issues. Additionally, I have experience in developing and managing network security policies and procedures. I have the ability to install, configure, and manage advanced security systems, as well as maintain and monitor existing systems. I am a team player, with excellent communication and problem-solving skills. I am confident that I can be a valuable asset to any organization.

Employment History

Network Security Technician at Global NAPs, AZ

Dec 2022 - Present

- Implemented a comprehensive network security solution that reduced the risk of data breaches by 60%, resulting in a cost savings of \$250,000 for Global NAPs.
- Designed and implemented a multi-factor authentication system that reduced the risk of unauthorized access by 90%.
- Developed a detailed security audit report that identified and resolved a number of vulnerabilities, preventing potential data loss.
- Monitored the network traffic and identified 400 malicious IP addresses, resulting in a significant decrease in suspicious activity.

Network Security Associate at DataVox, AZ

Aug 2021 - Nov 2022

- Implemented a new firewall system across the DataVox network, resulting in a 70% reduction in security incidents over a 6-month period.
 - Conducted regular vulnerability scans on the DataVox network to identify and address security risks, which resulted in a 25% increase in network performance.
 - Developed an incident response plan for DataVox that reduced the mean time to resolution of security incidents by 40%.
 - Developed and implemented a comprehensive set of security policies and procedures that improved DataVox's overall security posture by 30%.
-
