## Profile

I am a Software Development Manager with over 6 years of experience in managing software development teams, leading projects, and overseeing the development process from concept to deployment. My extensive experience includes managing the development of web and mobile applications, working with the stakeholders to understand the project requirements and developing a detailed roadmap, and working with the product owners to ensure the timely delivery of the product. I am proficient in both Agile and Waterfall methodologies and have a proven track record of success. I have a strong background in software development and a comprehensive understanding of software engineering principles and best practices. I have excellent communication, problem solving, and leadership skills, and I am also highly organized and detail-oriented. I am committed to delivering high-quality software solutions that meet the customer's needs and expectations.
