

Yuuki Sletta

Neurologist

Profile

A diligent and dedicated Neurologist with 7 years of experience in diagnosing and treating a wide range of neurological disorders. Proficient in managing complex cases, conducting research, and staying up-to-date with the latest advancements in the field. Strong interpersonal skills, allowing for effective communication with patients, families, and multidisciplinary teams. Committed to providing exceptional patient care and contributing to the ongoing development of neurology as a specialty.

Employment History

Neurologist at Virginia Neurology & Sleep Centers, VA

May 2023 - Present

- Successfully diagnosed and treated over 1,500 patients with neurological disorders annually, resulting in a 90% improvement rate in their symptoms and quality of life.
- Implemented an innovative telemedicine program that increased patient access to neurological care by 30%, allowing the practice to reach underserved populations in rural areas of Virginia.
- Conducted a comprehensive sleep study program that helped diagnose and treat sleep disorders in over 800 patients per year, resulting in a 75% reduction in sleep-related issues and improved overall health.
- Led a team of neurologists and support staff to achieve a 95% patient satisfaction rate, demonstrating excellence in patient care and communication, and contributing to the growth of the practice.

Associate Neurologist at Inova Neurology, VA

Jul 2020 - Mar 2023

- Successfully diagnosed and treated 95% of patients with complex neurological disorders, resulting in improved patient outcomes and a significant reduction in hospital readmissions for those conditions.
- Implemented a new patient management system that streamlined appointment scheduling and follow-up care, leading to a 20% increase in patient satisfaction ratings and a 15% reduction in missed appointments.
- Collaborated on a research project that identified a novel biomarker for early detection of Alzheimer's disease, leading to a publication in a high-impact scientific journal and potential new diagnostic tools for the field of neurology.
- Led a team of junior neurologists in the development and implementation of an updated concussion protocol, which decreased recovery time for affected patients by 25% and reduced the risk of long-term complications.

Neurology Resident at Sentara Neurology Specialists, VA

Aug 2016 - May 2020
