Employment History

Obiee Developer at Cognizant Technology Solutions, MO
Apr 2023 - Present

- Successfully designed and implemented a comprehensive reporting solution for a major client, resulting in a 30% reduction in manual report generation efforts and a 25% increase in overall report accuracy.
- Streamlined the ETL process for a large-scale data migration project, enabling the client to consolidate disparate data sources and improve data quality by 40%.
- Led a team of 4 developers in the creation and delivery of an interactive dashboard, providing real-time insights for key performance indicators and driving a 20% improvement in decision-making efficiency for the client's executive team.
- Developed and conducted extensive training sessions on OBIEE best practices and functionality for over 50 team members across multiple projects, leading to a 15% increase in productivity and a 10% reduction in support requests.

Junior Obiee Developer at Centene Corporation, MO
Sep 2022 - Feb 2023

- Successfully developed and implemented 10+ interactive BI dashboards within a year, resulting in a 25% improvement in decision-making efficiency for business users at Centene Corporation.
- Streamlined ETL processes for data integration by 30% through the optimization of Informatica workflows and mappings, leading to a significant reduction in data load times and improved data quality.
- Conducted extensive user training sessions, increasing the adoption rate of OBIEE tools by 50% among business users and enabling them to generate custom reports and insights independently.
