Employment History

Oncology Pharmacist at Comprehensive Cancer Centers of Nevada, NV

Mar 2023 - Present

- Successfully managed medication therapy for over 500 oncology patients, ensuring optimal drug selection, dosing, and monitoring to minimize adverse effects and improve patient outcomes.
- Developed and implemented a clinical pharmacy service that reduced medication errors by 30% and improved overall patient safety in the oncology department.
- Collaborated with a multidisciplinary team to create evidence-based treatment protocols for various cancer types, resulting in a 25% decrease in chemotherapy-related complications and a 15% improvement in overall patient survival rates.
- Streamlined the process of obtaining prior authorizations for high-cost medications, reducing the average time from 5 days to 2 days and ensuring timely access to critical therapies for patients.

Clinical Oncology Pharmacist at Nevada Cancer Institute, NV

Aug 2021 - Feb 2023

- Developed and implemented a comprehensive oncology medication management program, resulting in a 25% reduction in medication errors and a 15% improvement in patient adherence to treatment plans within the first year of implementation.
- Streamlined the chemotherapy preparation process by introducing an automated system, which increased efficiency by 30% and reduced the average waiting time for patients receiving chemotherapy by 45 minutes.
- Collaborated with a multidisciplinary team to create and deliver educational seminars and workshops for over 200 healthcare professionals within the Nevada Cancer Institute, leading to a 20% increase in the accurate identification and management of drug-related side effects in cancer patients.
