# Lina Acocella

Oracle ADF Developer

## 👤 Profile

Oracle ADF Developer with 1 year of experience in designing, developing, and implementing high-quality web applications using Oracle Application Development Framework. Proficient in Java, ADF, and Oracle Fusion Middleware, with a strong understanding of database design and integration. Demonstrated ability to work in a fast-paced environment, adapt to new technologies, and contribute effectively to team projects. Seeking opportunities to leverage and expand skills in Oracle ADF development and create innovative solutions for business needs.

## 💼 Employment History

### Oracle ADF Developer at C Spire, MS

Apr 2023 - Present

- Developed and implemented a complex Oracle ADF application for C Spire's customer management system, resulting in a 35% increase in operational efficiency and a 25% reduction in customer service response time.
- Successfully migrated legacy systems to the Oracle ADF framework, consolidating data from multiple sources and streamlining business processes, leading to an overall cost savings of $1.2 million over a two-year period.
- Led a team of developers in the creation of a custom Oracle ADF solution for C Spire's billing and invoicing system, improving the accuracy of financial reporting by 15% and reducing manual data entry errors by 40%.

### Junior Oracle ADF Developer at FNC Inc., MS

Jul 2022 - Feb 2023

- Developed and implemented an Oracle ADF application for the company's core business processes, resulting in a 30% reduction in manual data entry and a 20% increase in overall process efficiency.
- Successfully integrated the Oracle ADF application with multiple external systems, streamlining data flow and reducing data discrepancies by 15%.
- Led a team of junior developers in the optimization and performance tuning of the Oracle ADF application, achieving a 25% improvement in response times and enhancing user satisfaction.
