## Profile

Oracle Developer with 1 year of experience in designing, developing, and implementing Oracle database solutions. Proficient in PL/SQL, SQL tuning, and performance optimization. Demonstrated ability to work effectively in a team environment and deliver high-quality results. Quick learner and adaptable to new technologies and tools. Strong analytical and problem-solving skills, with a focus on continuous improvement and delivering value to clients.

## Employment History

### Senior Oracle Developer at Tek Experts, CO

Feb 2023 - Present

- Developed and implemented a comprehensive database optimization strategy for a major client, resulting in a 45% increase in query performance and a 30% reduction in server load.
- Successfully migrated a large-scale legacy system to Oracle Cloud Infrastructure for a global enterprise, leading to a 50% reduction in operational costs and improving overall system reliability by 25%.
- Led a team of junior developers in the design and deployment of a custom Oracle-based solution for a high-profile client, which streamlined their business processes and increased overall efficiency by 60%.

### Oracle Developer at Catalyst Solutions, CO

Sep 2022 - Dec 2022

- Developed and implemented a comprehensive database system for a major client, resulting in a 35% increase in efficiency and a 25% reduction in data processing time.
- Successfully migrated legacy systems to Oracle for three large-scale projects, leading to a 40% improvement in overall system performance and a 20% reduction in maintenance costs.
- Optimized SQL queries and PL/SQL code for multiple applications, resulting in an average of 30% improvement in query response times and a 15% decrease in server load.
- Led a team of junior Oracle Developers in the successful completion of a critical project, delivering it on time and within budget, while also providing valuable mentorship and guidance to the team members.
