PROFILE

Dedicated Pediatric Nurse Practitioner with 2 years of experience in providing compassionate and evidence-based care to children of all ages. Adept at performing comprehensive assessments, creating individualized care plans, and collaborating with interdisciplinary teams to deliver high-quality patient care. Strong background in health promotion, disease prevention, and patient education. Committed to enhancing the well-being and quality of life for pediatric patients and their families.

EMPLOYMENT HISTORY

● Pediatric Nurse Practitioner at Indiana University Health Pediatric Associates, IN

May 2023 - Present

- Successfully managed the care of over 1,500 pediatric patients annually, ensuring timely diagnosis and treatment, resulting in a 95% patient satisfaction rate.
- Implemented a comprehensive vaccination program, leading to an increase in immunization rates from 80% to 95% among the pediatric population served by Indiana University Health Pediatric Associates.
- Collaborated with a multidisciplinary team to develop and launch a Pediatric Asthma Management Program, reducing emergency room visits by 30% and improving overall asthma control among participating patients.
- Streamlined clinic workflow and patient scheduling procedures, decreasing wait times by 20% and increasing appointment availability, ultimately leading to a 10% increase in annual patient visits.

● Associate Pediatric Nurse Practitioner at Peyton Manning Children's Hospital at St. Vincent, IN

Aug 2021 - Mar 2023

- Successfully managed the care of over 1,500 pediatric patients annually, resulting in a 95% patient satisfaction rate and significantly contributing to the hospital's reputation for high-quality care.
- Implemented a new patient education program focusing on childhood obesity, which led to a 30% increase in healthy lifestyle adoption among participating families and a 10% reduction in obesity-related complications within two years.
- Collaborated with a multidisciplinary team to develop and launch a pediatric asthma management program, resulting in a 40% reduction in emergency room visits and a 25% decrease in hospital admissions for asthma-related issues within the first year.
- Led a quality improvement initiative that streamlined patient flow and reduced average wait times by 20%, enhancing patient experience and increasing overall clinic efficiency.
