Employment History

Petroleum Inspector at Petro Inspect, AZ

Feb 2023 - Present

- Conducted over 500 inspections of petroleum storage tanks and pipelines within a year, ensuring compliance with industry standards and local regulations, resulting in a 98% compliance rate for inspected facilities.
- Successfully identified and addressed 20 cases of non-compliance, leading to the implementation of corrective measures and preventing potential hazards and financial losses for Petro Inspect and its clients.
- Trained and mentored five new Petroleum Inspectors, contributing to a 25% increase in the inspection team's capacity and efficiency in the AZ region.
- Streamlined the inspection process by implementing a new digital reporting system, reducing report turnaround time by 40% and increasing client satisfaction ratings by 15%.

Assistant Petroleum Inspector at SGS North America, AZ

Sep 2022 - Dec 2022

- Successfully increased inspection efficiency by 20% through the implementation of an improved data recording system and streamlining daily processes.
- Conducted over 1500 accurate and timely inspections of petroleum products, ensuring compliance with industry standards and resulting in a 30% reduction in non-conformances for the team.
- Trained and mentored 5 new assistant petroleum inspectors, contributing to a 10% increase in team productivity and reducing onboarding time by 2 weeks.
- Collaborated with the team to develop and implement a new safety protocol, leading to a 25% decrease in workplace incidents and improving overall safety performance.
