PROFILE

Dedicated Pipe Welder with 2 years of experience in diverse welding and fabrication environments. Proficient in various welding techniques, including TIG, MIG, and Stick welding. Demonstrated ability to interpret blueprints and ensure high-quality results in line with industry standards and safety guidelines. Committed to continuous learning and pursuing opportunities for professional growth.

EMPLOYMENT HISTORY

● **Pipe Welder at Welding Works Inc., FL**
Feb 2023 - Present

- Successfully completed a major pipeline project for a leading oil company in Florida, where I welded over 10 miles of high-pressure pipes with a 99.5% accuracy rate and zero leaks, ensuring smooth operations and enhanced safety.
- Effectively reduced welding time by 20% on a critical infrastructure project by implementing new welding techniques and technologies, resulting in significant cost savings and early completion of the project.
- Led a team of 15 welders in the construction of a large-scale industrial facility, where we successfully installed and welded over 5,000 feet of stainless steel piping while maintaining a high standard of quality and meeting all deadlines.
- Played a key role in the repair and maintenance of a major water treatment plant, where I performed over 200 high-precision welds on complex piping systems, resulting in a 30% increase in plant efficiency and reducing downtime by 50%.

● **Pipe Welder Apprentice at Florida Pipe Welding Services, FL**
Sep 2021 - Jan 2023

- Successfully completed 50+ pipe welding projects for various clients in the Florida area, contributing to a 20% increase in overall company revenue.
- Efficiently assisted in the installation and repair of over 100 miles of pipeline systems, helping to reduce project completion times by 15%.
- Collaborated with a team of experienced welders to improve overall welding quality, leading to a 25% reduction in defect rates and increased customer satisfaction.
- Consistently achieved a 95% first-time pass rate on all welding tests and certifications, ensuring efficient progress in the apprenticeship program and enhancing professional development.

CERTIFICATES

Certified Welding Inspector (CWI)
Dec 2021

American Society of Mechanical Engineers (ASME) Section IX Certification
Nov 2020
