PROFILE

Dedicated Plant Operator with 1 year of experience in efficiently managing plant operations, ensuring safety compliance, and optimizing production processes. Adept at monitoring equipment performance, conducting routine maintenance, and implementing process improvements. Strong problem-solving and communication skills with a proven ability to work collaboratively in a team environment.

EMPLOYMENT HISTORY

● Plant Operator at Kansas Ethanol LLC, KS

Mar 2023 - Present

- Successfully increased plant efficiency by 15% through the optimization of equipment and processes, resulting in a higher production rate and reduced downtime.
- Implemented a new preventive maintenance program that reduced equipment failures by 25%, leading to a significant decrease in maintenance costs and increased overall plant reliability.
- Played a key role in reducing plant emissions by 10% through the installation and operation of advanced pollution control systems, contributing to a cleaner and safer working environment.
- Led a team of operators in achieving a record-breaking production output of 60 million gallons of ethanol per year, surpassing the previous record by 5 million gallons and generating increased revenue for Kansas Ethanol LLC.

● Assistant Plant Operator at ICM Inc., KS

Aug 2022 - Feb 2023

- Successfully increased plant efficiency by 15% through the optimization of equipment and processes, resulting in annual cost savings of \$500,000 for ICM Inc., KS.
- Led a team of 8 technicians in the implementation of a new preventive maintenance program, reducing equipment downtime by 30% and increasing overall productivity by 10%.
- Played a key role in the successful completion of a \$2 million plant upgrade project, which led to a 20% increase in production capacity and improved product quality.
