

# Talea Bredice

Plant Worker

## Profile

Dedicated Plant Worker with 1 year of experience in efficiently operating machinery, performing routine maintenance, and handling production tasks in fast-paced environments. Demonstrates strong teamwork and communication skills and the ability to adapt to new processes and technologies. Committed to maintaining safety and quality standards to contribute to overall plant success.

## Employment History

### Plant Operator at Cargill, KS

Mar 2023 - Present

- Successfully increased plant efficiency by 15% within one year through the implementation of process improvements and regular maintenance, resulting in a significant reduction in production downtime and increased output at the Cargill facility in Kansas.
- Effectively reduced annual operating costs by \$250,000 through the identification and implementation of energy-saving initiatives, including the optimization of equipment usage and the implementation of a waste heat recovery system.
- Achieved a 20% reduction in workplace accidents and injuries over a two-year period by spearheading a comprehensive safety training program for plant employees, fostering a culture of safety awareness and adherence to safety protocols.

### Plant Worker at Tyson Foods, KS

Aug 2022 - Feb 2023

- Successfully increased production efficiency by 15% within six months by implementing new processes and optimizing equipment usage, resulting in a significant boost in output for the Tyson Foods plant in Kansas.
- Achieved a 10% reduction in waste generated during production through continuous monitoring, targeted improvements, and employee training, contributing to the company's sustainability goals and cost savings.
- Played a key role in maintaining 98% on-time delivery rate for customer orders by coordinating closely with team members and ensuring smooth workflow during high-demand periods, leading to increased customer satisfaction.
- Recognized for outstanding safety record, having maintained zero lost-time accidents for two consecutive years through strict adherence to safety protocols and proactive identification and resolution of potential hazards.

## Education

### Certificate in Plant Operations at Kansas State University, Manhattan, KS

Sep 2017 - May 2022
