HOBBIES

EMPLOYMENT HISTORY

● Process Operator at Cargill Incorporated, IN

Mar 2023 - Present

- Successfully increased production efficiency by 15% within the first year of employment, through the implementation of innovative process improvements and strict adherence to quality control measures, resulting in significant cost savings for Cargill Incorporated, IN.
- Effectively reduced equipment downtime by 25% by conducting thorough preventive maintenance checks and implementing a streamlined reporting system for identifying and addressing potential issues, leading to increased productivity and reduced maintenance costs.
- Consistently surpassed monthly production targets by an average of 10%, by optimizing process parameters, coordinating with cross-functional teams, and maintaining a high level of attention to detail, earning recognition as a top performer within the company.

● Associate Process Operator at Eli Lilly and Company, IN

Jul 2022 - Feb 2023

- Successfully improved production efficiency by 15% through the optimization of process workflows and implementation of innovative operational techniques, resulting in increased output and reduced downtime.
- Streamlined product quality control procedures, leading to a 10% reduction in defects and waste, ultimately saving the company \$50,000 annually in material and labor costs.
- Led a cross-functional team that implemented a new safety protocol, resulting in a 20% decrease in workplace accidents and contributing to the achievement of a record-setting 500 days without a lost-time incident.

EDUCATION

Associate of Applied Science in Process Technology at Ivy Tech Community College, IN

Aug 2018 - May 2022

Relevant Coursework: Process Control Systems, Process Instrumentation, Process Equipment, Safety and Environmental Regulations, Industrial Chemistry, Piping and Plant Equipment, Process Drawings and Diagrams, Process Troubleshooting, and Quality Control.

CERTIFICATES

Certified Control Systems Technician (CCST)

Nov 2021
