HOBBIES

PROFILE

Dedicated Professional Nurse with 2 years of experience in providing exceptional patient care in diverse healthcare settings. Proficient in developing individualized care plans, collaborating with multidisciplinary teams, and maintaining a compassionate and patient-focused approach. Demonstrated ability to adapt to new environments, enhance clinical skills, and stay current with evidence-based practices. Committed to continuous professional development and seeking opportunities to expand knowledge and contribute to improved patient outcomes.

EMPLOYMENT HISTORY

- **Registered Nurse at Alaska Native Tribal Health Consortium, AK**
Mar 2023 - Present
 - Successfully managed a team of 12 nurses and support staff, resulting in a 15% increase in overall patient satisfaction scores within one year.
 - Implemented a new Electronic Health Record (EHR) system, streamlining documentation processes and reducing data entry errors by 20%.
 - Led a quality improvement initiative focused on reducing hospital-acquired infection rates, achieving a 25% reduction in the first six months.
 - Developed and delivered a comprehensive training program for new nursing staff, contributing to a 30% decrease in turnover rates and improved staff competency levels.
- **Staff Nurse at Providence Health & Services Alaska, AK**
Aug 2021 - Jan 2023
 - Successfully managed the care of over 1000 patients annually, ensuring timely and accurate administration of medications, treatments, and interventions, resulting in a 98% patient satisfaction rate.
 - Streamlined the patient admission process by collaborating with interdisciplinary team members to develop and implement new protocols, reducing average admission time by 30% and increasing patient throughput by 15%.
 - Led a team of 10 nursing staff, providing mentorship and guidance, which contributed to a 20% decrease in staff turnover and an improvement in overall team performance.
 - Actively participated in the development and implementation of a new electronic health record system, resulting in a 50% reduction in documentation errors and a 25% increase in nursing efficiency.
