

# Nichole Bodey

Program Evaluator

## Profile

Results-driven Program Evaluator with 2 years of experience in designing and implementing comprehensive evaluation frameworks to assess program efficiency and effectiveness. Skilled in data analysis, report writing, and stakeholder engagement, with a strong focus on optimizing resources and maximizing impact. Proven track record of delivering actionable insights to drive continuous improvement in program outcomes.

## Employment History

### Program Evaluator at Midwest Evaluation & Research, MO

Mar 2023 - Present

- Developed and implemented a comprehensive evaluation plan for a major statewide education initiative, resulting in a 25% increase in program effectiveness and a 15% improvement in student outcomes over a three-year period.
- Conducted a thorough analysis of a community health program's data collection methods, leading to the identification and correction of significant gaps in reporting, ultimately improving data accuracy by 40%.
- Provided expert guidance and support to a non-profit organization during a critical program redesign, helping them to streamline services and reduce operational costs by 30%, while maintaining high-quality support for clients.
- Led a cross-functional team in the creation of a new performance measurement system for a large social services agency, leading to a 20% increase in staff efficiency and a 10% reduction in client wait times.

### Associate Program Evaluator at The Evaluation Group, MO

Jul 2021 - Jan 2023

- Successfully completed the evaluation of 10+ educational programs within a year, providing valuable insights and recommendations to improve program effectiveness and student outcomes.
- Conducted data analysis on over 5000 student performance records, identifying trends and patterns that contributed to a 15% increase in overall program efficiency.
- Collaborated with a team of 5 evaluators to develop and implement a streamlined data collection process, reducing time and effort spent on data management by 25%.
- Presented findings and recommendations from program evaluations to stakeholders, leading to the implementation of 10+ evidence-based practices and a 20% improvement in program outcomes.
