PROFILE

Dedicated Psychiatric Technician with 1 year of experience providing compassionate care and support to individuals with mental health challenges. Skilled in implementing individualized treatment plans, fostering therapeutic relationships, and maintaining a safe, structured environment. Proficient in crisis prevention and de-escalation techniques, as well as accurate documentation and compliance with relevant regulations. Committed to ongoing professional development and enhancing patient outcomes in a mental health care setting.

EMPLOYMENT HISTORY

● Psychiatric Technician at New Mexico Behavioral Health Institute, NM

May 2023 - Present

- Successfully managed the care of 35 patients on a daily basis, ensuring timely administration of medications and therapy sessions, resulting in a 25% decrease in reported patient incidents over a one-year period.
- Developed and implemented individualized treatment plans for 15 high-risk patients, contributing to a 30% increase in successful discharges and a subsequent reduction in readmission rates within six months.
- Collaborated with a multidisciplinary team to create a comprehensive staff training program, which led to a 20% increase in overall staff competency and a 15% reduction in employee turnover within the first year of implementation.

● Psychiatric Technician Assistant at Haven Behavioral Healthcare, NM

Aug 2022 - Apr 2023

- Successfully managed a caseload of 25 patients, conducting regular assessments and providing personalized care plans that led to a 30% improvement in patient outcomes within six months.
- Streamlined the patient intake process by implementing a digital system for managing patient records, reducing administrative workload by 20% and enabling staff to dedicate more time to direct patient care.
- Collaborated with a multidisciplinary team of psychiatrists, nurses, and therapists to develop and implement an innovative group therapy program that reduced patient readmission rates by 15% in one year.
- Played a key role in achieving a 90% patient satisfaction rate by providing empathetic and responsive care, consistently addressing patient concerns, and maintaining a safe and supportive environment.
