## Profile

Dedicated Rails Developer with 1 year of experience in designing, developing, and implementing efficient web applications. Adept at leveraging Ruby on Rails, HTML, CSS, and JavaScript to create user-friendly solutions. Strong background in Agile methodologies, software testing, and debugging. Proactive problem solver committed to continuous learning and collaboration.

## Employment History

### Senior Rails Developer at CivicPlus, KS

Mar 2023 - Present

- Led the development of a major Rails application upgrade for a key client, resulting in a 30% increase in site performance and a 25% reduction in server load, ultimately improving user experience and client satisfaction.
- Successfully completed the migration of a legacy Ruby on Rails application to the latest version for over 50 clients, ensuring seamless integration and minimal downtime, thus contributing to a 20% increase in annual revenue for the company.
- Implemented automated testing and continuous integration processes for the Rails development team, leading to a 15% reduction in time spent on manual testing and a 10% decrease in software bugs reported by end-users.
- Spearheaded the creation of a new Rails-based feature for the company's flagship product, which led to a 10% increase in user engagement and was adopted by 80% of the existing client base within the first three months of launch.

### Junior Rails Developer at Keyhole Software, KS

Jul 2022 - Jan 2023

- Developed a custom web application for a major client, resulting in a 30% increase in their operational efficiency and contributing to a 15% growth in revenue over six months.
- Successfully implemented a Ruby on Rails framework upgrade, improving overall application performance by 20% and reducing server load by 10%.
- Collaborated on a team of four developers to create a new internal project management tool, streamlining project workflows and increasing team productivity by 25%.
