Profile

Results-driven Risk Management Specialist with 2 years of experience in identifying, assessing, and mitigating potential risks in various industries. Proven ability to develop and implement comprehensive risk management strategies while maintaining a keen awareness of market trends and regulatory changes. Adept at collaborating with cross-functional teams, conducting risk assessments, and delivering data-driven insights to support informed decision-making. Excellent communication and analytical skills with a strong commitment to continuous professional development.

Employment History

Risk Management Specialist at Aon Risk Solutions, KS

May 2023 - Present

- Successfully implemented a risk management program for a major client, resulting in a 25% reduction in insurance claims and saving the company \$1.5 million annually.
- Conducted a comprehensive risk assessment for a large manufacturing organization, identifying potential hazards and vulnerabilities, leading to a 30% decrease in workplace accidents and a 15% reduction in operational risks.
- Developed and delivered customized risk management training programs for over 100 employees, enhancing their understanding of risk management principles and improving overall company performance in risk mitigation.
- Negotiated favorable insurance policy terms for a key client, securing a 20% reduction in premiums and saving the client over \$500,000 in annual insurance costs.

Associate Risk Management Specialist at Lockton Companies, KS

Sep 2021 - Mar 2023

- Successfully reduced company risk exposure by 25% by identifying potential risks and implementing effective mitigation strategies, resulting in a significant decrease in insurance claims and financial loss.
- Conducted thorough risk assessments for over 50 clients, leading to the development of customized risk management plans that reduced their overall risk profile by an average of 20%.
- Spearheaded a cross-functional team to revamp Lockton Companies' internal risk management policies and procedures, leading to a 15% improvement in efficiency and a 10% reduction in operational risk incidents.
