

# Andres Huntress

Sanitation Worker

## Profile

Dedicated Sanitation Worker with 1 year of experience in maintaining cleanliness and hygiene in various environments. Skilled in waste collection, proper disposal methods, and operating sanitation equipment. Committed to adhering to safety guidelines and providing exceptional service to promote community health and well-being. Demonstrates excellent teamwork and communication skills, ensuring efficient operations and customer satisfaction.

## Employment History

### Sanitation Worker at Alaska Waste, AK

May 2023 - Present

- Successfully maintained a 99% on-time collection rate for over 5,000 residential and commercial customers in Anchorage, Alaska, ensuring consistent waste removal services and contributing to a clean and healthy community.
- Streamlined waste segregation processes by implementing an efficient recycling program in collaboration with local authorities, resulting in a 25% increase in recycled materials and reducing landfill waste by 1,000 tons annually.
- Improved overall safety and efficiency of waste collection operations by conducting regular training sessions and equipment maintenance checks, resulting in a 40% reduction in workplace accidents and a 15% increase in productivity.

### Sanitation Worker Assistant at Polar Waste Services, AK

Jul 2022 - Mar 2023

- Successfully collected and disposed of over 10,000 pounds of waste materials weekly, ensuring a cleaner and healthier environment for the community.
- Streamlined waste collection routes, reducing travel time by 20% and increasing overall efficiency in the waste disposal process.
- Assisted in the implementation of a recycling program, resulting in a 30% increase in recycling rates and a significant reduction in landfill waste.
- Trained and mentored 5 new sanitation worker assistants, improving team performance and cohesion while maintaining a 100% safety record.

## Education

### Certificate in Waste Management and Sanitation at University of Alaska Anchorage, AK

Sep 2018 - May 2022

Relevant Coursework: Waste Management Principles, Sanitation Practices, Recycling Technologies, Environmental Policies, Hazardous Waste Disposal, Landfill Management, and Sustainable Waste Solutions.
