PROFILE

SAP Security Consultant with 2 years of experience in designing, implementing, and maintaining robust security solutions for SAP systems. Proficient in role-based security concepts, GRC, and S/4HANA security, with a proven track record of improving system stability and ensuring compliance with industry regulations. Adept at collaborating with cross-functional teams to identify vulnerabilities and implement effective security measures, while also providing training and support to end-users. Committed to staying up-to-date with the latest security trends and best practices to ensure the ongoing protection of critical business data and systems.

EMPLOYMENT HISTORY

SAP Security Consultant at Accenture, AL

Feb 2023 - Present

- Successfully implemented a comprehensive SAP security framework for a major client, resulting in a 30% reduction in security incidents and a 25% improvement in system performance.
- Streamlined and optimized the client's SAP roles and authorizations process, leading to a 40% decrease in the number of escalated access issues and a 20% increase in user satisfaction.
- Spearheaded the integration of a new SAP GRC (Governance, Risk, and Compliance) module for a large-scale project, which led to a 50% reduction in audit findings and a 35% improvement in overall compliance.

Associate SAP Security Consultant at Deloitte, AL

Jul 2021 - Dec 2022

- Implemented a comprehensive SAP security framework for a major client, resulting in a 30% reduction in security incidents and a 20% improvement in compliance with industry standards.
- Streamlined the SAP role management process for a large organization, leading to a 25% increase in efficiency and a 15% reduction in role-related errors.
- Successfully managed a team of junior consultants during a high-profile SAP security project, delivering the project on time and within budget, while maintaining a 100% client satisfaction rating.
- Conducted an in-depth security audit for a major client, identifying and addressing critical vulnerabilities and improving overall system security by 40%.
