PROFILE

A Senior Test Engineer with 5 years of experience in designing, executing, and maintaining test plans, leading cross-functional teams, and ensuring high-quality software deliverables. Proficient in various testing methodologies, tools, and technologies, with a strong focus on automation and performance testing. Demonstrates excellent analytical, communication, and problem-solving skills, contributing to the continuous improvement of testing processes and product quality.

EMPLOYMENT HISTORY

- Senior Test Engineer at Paycom, OK**
Feb 2023 - Present
 - Implemented a comprehensive test automation strategy that increased testing efficiency by 40%, leading to faster product releases and reducing manual testing efforts.
 - Conducted thorough performance testing on the company's software suite, resulting in a 25% reduction in application response times and improving overall customer satisfaction.
 - Led a team of junior test engineers in the successful completion of over 100 high-priority test cases within a tight deadline, ensuring product quality and timely delivery for key clients.
- Test Engineer II at CACI International Inc, OK**
Sep 2018 - Dec 2022
 - Reduced software defects by 40% through the implementation of rigorous testing methodologies, which led to an increase in overall product quality and customer satisfaction for CACI International Inc.
 - Streamlined the test automation process by developing and implementing a new framework, resulting in a 30% reduction in test execution time and a 20% increase in test coverage for critical systems.
 - Successfully led a team of 5 junior test engineers in the completion of a high-priority project on time and within budget, delivering a robust and reliable solution that met all client requirements and exceeded their expectations.
