Employment History

Sheet Metal Mechanic at Precision Metal Works, IN

Apr 2023 - Present

- Successfully completed a large-scale project for a major client, fabricating and installing custom sheet metal components for 50 commercial HVAC systems within a tight deadline of 3 months, contributing to a 20% increase in company revenue.
- Streamlined the production process by implementing new techniques and tools, resulting in a 15% reduction in labor hours and a 10% increase in overall efficiency for the fabrication department.
- Led a team of 6 junior mechanics in a critical retrofit project, replacing outdated ductwork and ventilation systems in a 10,000 sq. ft. industrial facility, completing the project 2 weeks ahead of schedule and under budget.
- Developed and implemented a comprehensive preventive maintenance program for all sheet metal machinery and equipment, reducing downtime by 25% and increasing overall shop productivity by 12%.

Sheet Metal Mechanic Apprentice at Hoosier Metalform, IN

Sep 2019 - Mar 2023

- Successfully completed a complex sheet metal fabrication project for a major client, resulting in a 15% increase in overall production efficiency for Hoosier Metalform.
- Streamlined the assembly process for custom sheet metal components, reducing assembly time by 25% and increasing overall productivity by 10%.
- Assisted in the implementation of a new inventory management system, reducing material waste by 20% and saving the company over \$50,000 annually in material costs.
- Contributed to a team that improved workplace safety measures, leading to a 30% reduction in workplace accidents and injuries within one year.

Certificates

Sheet Metal and Air Conditioning Contractors' National Association (SMACNA) Certification

Mar 2022

Precision Sheet Metal Operator (PSMO) Certificate
