HOBBIES

PROFILE

Results-driven Software Development Manager with 5 years of experience in leading high-performing teams and delivering innovative software solutions. Expert in agile methodologies, project management, and software development best practices. Proven ability to streamline processes, optimize resource utilization, and enhance product quality. Adept at fostering collaborative environments and driving continuous improvement to meet business objectives and exceed client expectations.

EMPLOYMENT HISTORY

● Software Development Manager at Adobe Systems Incorporated, CA

May 2023 - Present

- Led a team that successfully developed and launched Adobe Creative Cloud, resulting in a 30% increase in subscription revenue within the first year of its release.
- Managed a cross-functional team of 50 software developers, QA engineers, and UX designers to deliver Adobe Photoshop CC, which led to a 25% increase in active users within the first six months of launch.
- Implemented Agile methodologies across the software development team, improving project delivery time by 40% and reducing the number of critical post-release bugs by 60%.
- Oversaw the successful migration of Adobe's legacy desktop applications to a unified cloud-based platform, resulting in a 35% reduction in development and maintenance costs.

● Associate Software Development Manager at Oracle Corporation, CA

Jul 2018 - Mar 2023

- Led a team of 10 developers in successfully completing a major software upgrade for a key client, resulting in a 20% increase in their operational efficiency and a 15% reduction in system downtime.
- Managed the full lifecycle of a critical software development project, from ideation to implementation, for a large enterprise customer, leading to a 25% increase in their overall productivity and a 30% reduction in IT costs.
- Implemented Agile methodologies across the development team, which improved project delivery times by 35% and increased overall team satisfaction by 20%.
- Successfully onboarded and trained five new software developers, increasing the team's capacity by 50% and contributing to a 40% increase in completed projects within the first year.
