Profile

Software Tester with 1 year of experience in efficiently identifying, documenting, and resolving software defects through the application of meticulous testing methodologies. Proficient in various testing approaches, including functional, regression, and compatibility testing, with expertise in both manual and automated testing tools. Strong analytical and problem-solving skills, coupled with excellent communication abilities, make for effective collaboration with cross-functional teams in ensuring high-quality product delivery.

Employment History

Senior Software Tester at Descartes Labs, NM

Mar 2023 - Present

- Successfully identified and resolved over 500 critical software defects within the first year, leading to a 40% reduction in customer-reported issues and a 30% increase in overall product stability.
- Streamlined the testing process by implementing automated testing tools and frameworks, resulting in a 35% decrease in testing time and a 25% increase in test coverage.
- Led a team of 5 junior testers, providing mentorship and guidance, which contributed to an overall 20% improvement in team efficiency and a 15% reduction in software release delays.
- Collaborated with cross-functional teams to successfully launch three major product updates, resulting in a 50% increase in customer satisfaction ratings and a 30% increase in new client acquisitions.

Junior Software Tester at Rural Sourcing, NM

Sep 2022 - Jan 2023

- Successfully executed over 500 test cases in a six-month period, resulting in a 95% defect detection rate and contributing to the successful launch of three major software projects for clients.
- Streamlined the testing process by creating and implementing an automated testing framework, reducing manual testing efforts by 40% and increasing overall team efficiency.
- Identified and reported over 300 critical bugs and issues, leading to a 30% improvement in software quality and significantly reducing post-release maintenance costs for clients.
- Collaborated with cross-functional teams to develop comprehensive test plans and strategies, ensuring thorough coverage of all product requirements and leading to a 20% decrease in product release delays.
