EMPLOYMENT HISTORY

Specimen Processor at BioReference Laboratories, TX

Mar 2023 - Present

- Successfully processed over 10,000 specimens within a 6-month period, maintaining a 99% accuracy rate and ensuring timely analysis and reporting of results.
- Implemented a new inventory management system that reduced specimen processing time by 20%, leading to increased efficiency and improved turnaround time for laboratory results.
- Trained and mentored 5 new team members, resulting in a 50% increase in processing capacity and contributing to the overall success of the laboratory operations.

Specimen Processing Technician at Labcorp, TX

Jul 2022 - Jan 2023

- Successfully processed over 15,000 specimens in a year, maintaining a 99% accuracy rate and contributing to the lab's timely delivery of results to patients and healthcare providers.
- Implemented a new specimen tracking system, reducing turnaround time by 20% and increasing overall lab efficiency.
- Trained and mentored 10 new technicians, ensuring they were proficient in Labcorp's standard operating procedures and protocols, resulting in a 100% pass rate for their competency assessments.
- Identified and resolved 50+ instances of mislabeled or improperly stored specimens, preventing potential errors in testing and diagnosis, and contributing to the lab's high quality standards.
