PROFILE

A highly skilled Supply Manager with 5 years of experience in optimizing supply chain processes, reducing costs, and ensuring timely delivery of goods. Adept at strategic planning, supplier management, and inventory control with a proven track record of improving efficiency and increasing profitability. Strong communication and negotiation skills, with a keen ability to build lasting relationships with vendors and stakeholders. Committed to continuous improvement and staying ahead of industry trends to drive business success.

EMPLOYMENT HISTORY

- Supply Chain Manager at Walmart, AR**
May 2023 - Present
 - Successfully reduced supply chain costs by 15% (\$10 million) through implementing strategic sourcing initiatives and negotiating better contracts with suppliers, resulting in improved profitability for Walmart Arkansas.
 - Streamlined the end-to-end distribution process, cutting lead times by 20% and improving on-time delivery rates to 98%, enhancing customer satisfaction and reducing stockouts in Walmart stores across Arkansas.
 - Led a cross-functional team in the successful integration of an advanced inventory management system, which increased forecast accuracy by 25% and reduced excess inventory holdings by \$5 million, optimizing warehouse space and reducing carrying costs.
- Supply Chain Coordinator at Tyson Foods, AR**
Sep 2018 - Apr 2023
 - Successfully reduced inventory costs by 15% through the implementation of a new warehouse management system and optimizing storage layouts, resulting in annual savings of \$1.2 million for Tyson Foods in AR.
 - Streamlined the procurement process by implementing a centralized purchasing system, leading to a 20% reduction in order processing time and a 10% increase in supplier on-time delivery performance.
 - Played a key role in the development and launch of a new demand forecasting tool, which improved forecast accuracy by 25% and reduced stockouts by 30%, leading to a 5% increase in customer satisfaction levels.
 - Led a cross-functional team to identify and address inefficiencies within the supply chain, resulting in a 12% reduction in lead times and a 7% improvement in overall supply chain responsiveness.
