EMPLOYMENT HISTORY

Supply Planner at Unilever, NJ

Apr 2023 - Present

- Successfully reduced inventory costs by 15% (\$1.2 million) through optimizing stock levels and implementing demand forecasting tools, resulting in improved cash flow and reduced obsolescence for Unilever NJ.
- Streamlined supply chain processes, achieving a 20% increase in on-time delivery rates while maintaining a 98% customer service level, leading to increased customer satisfaction and overall business performance.
- Led cross-functional team in the implementation of a new warehouse management system, resulting in a 25% improvement in warehouse efficiency, reducing labor costs by \$500,000 annually, and increasing overall throughput capacity.

Associate Supply Planner at Johnson & Johnson, NJ

Jul 2022 - Feb 2023

- Successfully reduced inventory levels by 15% over a 12-month period, resulting in a cost savings of \$2 million for Johnson & Johnson's NJ facility.
- Implemented a new demand forecasting model that improved forecast accuracy by 20%, leading to a more efficient production schedule and a reduction in stockouts.
- Streamlined the supplier management process, reducing lead times by 10% and improving overall supplier performance metrics, which contributed to a 5% increase in on-time deliveries.
