Building and programming robots

PROFILE

Highly skilled Systems Integrator with 2 years of experience in designing, implementing, and maintaining complex IT systems. Proficient in system analysis, project management, and troubleshooting, with a strong foundation in various technologies and platforms. Demonstrated success in working with cross-functional teams, optimizing system performance, and ensuring seamless integration of new technologies. Committed to delivering high-quality solutions that meet business requirements and improve overall efficiency.

EMPLOYMENT HISTORY

● Systems Integrator at Whitaker Technical Consulting, WY

Apr 2023 - Present

- Successfully integrated a new enterprise resource planning (ERP) system for a major client, resulting in a 20% increase in operational efficiency and a 15% reduction in administrative costs.
- Led a team of technical experts in the design and implementation of a complex network infrastructure upgrade for a large organization, improving overall network performance by 30% and reducing downtime by 25%.
- Developed and executed a comprehensive cybersecurity strategy for a high-profile client, which led to a 50% reduction in security incidents and a 40% improvement in incident response times.
- Managed the successful migration of critical business applications for a client from legacy systems to a modern, cloud-based platform, resulting in a 35% reduction in IT maintenance costs and a 10% increase in overall application performance.

● Associate Systems Integrator at Ptolemy Data Systems, WY

Jul 2021 - Feb 2023

- Successfully implemented a large-scale system integration project for a major client, resulting in a 20% increase in operational efficiency and a 15% reduction in system maintenance costs.
- Streamlined the software development process by introducing agile methodologies, leading to a 30% reduction in project delivery time and a 25% improvement in team productivity.
- Spearheaded the migration of critical business applications to a cloud-based infrastructure, reducing IT costs by 35% and improving system reliability by 40%.
- Led a cross-functional team in the design and implementation of a robust cybersecurity framework, which significantly reduced security incidents by 50% and strengthened the company's reputation for data protection.
