

Natalyn Cable

Technology Teacher

Profile

Dedicated Technology Teacher with 1 year of experience in delivering engaging and innovative lessons in various technological disciplines. Adept at fostering a collaborative learning environment and integrating emerging technologies to enhance students' understanding and application of essential tech concepts. Committed to promoting digital literacy and nurturing the next generation of skilled technology users and innovators.

Employment History

Technology Teacher at TechTeach Kansas, KS

Mar 2023 - Present

- Developed and implemented a comprehensive technology curriculum for K-12 students, resulting in a 35% increase in state assessment scores in computer literacy over a 3-year period.
- Trained and mentored over 50 fellow educators on integrating technology into their classrooms, leading to a 25% increase in school-wide technology usage and improving overall student engagement.
- Secured \$75,000 in grant funding for the expansion of the school's technology resources, enabling the purchase of new equipment and software, and the establishment of a dedicated computer lab for hands-on learning.
- Led a successful after-school robotics program, with participating students winning multiple regional and state-level competitions, including a first-place finish at the Kansas State Robotics Championship.

Assistant Technology Teacher at Kansas Tech Educators, KS

Sep 2022 - Feb 2023

- Successfully assisted in the implementation of a new online learning platform for Kansas Tech Educators, leading to a 30% increase in student engagement and a 15% improvement in overall test scores.
- Developed and executed a comprehensive technology training program for over 100 faculty members, resulting in a 40% increase in technology proficiency among staff and a smoother transition to remote learning during the pandemic.
- Coordinated and led a team of 5 technology assistants to provide daily technical support and troubleshooting for over 1,000 students and staff, reducing average wait times for assistance by 50%.
- Played a key role in securing a \$50,000 grant for Kansas Tech Educators to upgrade and expand technology resources, including the purchase of new computers, tablets, and software licenses for classrooms.
