HOBBIES

PROFILE

Dedicated Test Analyst with 1 year of experience in designing and executing test plans to ensure software quality. Proficient in various testing methodologies, tools, and techniques, with a strong focus on identifying and resolving defects. Demonstrated ability to collaborate with cross-functional teams, adapt to changing priorities, and continuously improve testing processes. Committed to delivering high-quality software products that meet user requirements and enhance the overall user experience.

EMPLOYMENT HISTORY

● Senior Test Analyst at Collins Aerospace, IA

May 2023 - Present

- Led a team of 5 test analysts in the successful completion of over 200 test cases for a critical avionics software project, resulting in a 99% pass rate and contributing to a 30% reduction in project timeline.
- Conducted comprehensive system testing for a complex flight control system, identifying and resolving 75+ software defects, which improved overall system reliability by 40% and ensured compliance with FAA regulations.
- Developed and implemented a streamlined test automation framework that reduced manual test execution time by 50%, enabling the team to complete an additional 100 test cases per month and increasing overall test coverage.
- Spearheaded the integration of a continuous integration and testing pipeline, reducing the average defect resolution time by 20% and improving collaboration between development and testing teams.

● Test Analyst at Principal Financial Group, IA

Sep 2022 - Apr 2023

- Successfully executed over 250 test cases within a tight deadline, resulting in a 98% pass rate and contributing to the on-time delivery of a major software release.
- Identified and reported 150+ high-priority defects during the testing phase of a new financial application, leading to a 30% reduction in post-launch issues and increased client satisfaction.
- Streamlined the test case management process by implementing a new test management tool, which reduced manual effort by 40% and increased overall team efficiency.
