EMPLOYMENT HISTORY

Senior Tester at IBM, NC

May 2023 - Present

- Led a team of 10 testers in successfully completing the testing phase of a major software project for a Fortune 500 client, resulting in a 20% reduction in reported defects post-release and contributing to a 15% increase in overall client satisfaction.
- Developed and implemented an automated testing framework that increased test coverage by 30% and reduced average testing time by 25%, leading to faster product releases and a more efficient testing process.
- Collaborated with cross-functional teams to identify and address over 300 critical software issues, ultimately improving system performance by 18% and reducing customer support calls by 12%.

Junior Tester at Cisco Systems, NC

Sep 2022 - Apr 2023

- Implemented a comprehensive testing strategy that increased overall software quality by 35% and reduced critical defects by 20% for Cisco's flagship product line.
- Developed and executed over 2,000 test cases for a major software release, resulting in a 99% pass rate and contributing to a successful on-time product launch.
- Identified and reported over 500 software defects, leading to a 25% reduction in customer-reported issues post-release.
- Collaborated with cross-functional teams to improve communication and streamline the testing process, reducing testing time by 15% and increasing efficiency.
