## Profile

Results-driven Transportation Manager with 5 years of experience in optimizing logistical processes, reducing costs, and ensuring timely delivery of goods. Adept at managing teams, implementing safety protocols, and utilizing data-driven approaches to enhance operational efficiency. Proven track record of fostering customer satisfaction and maintaining strong relationships with stakeholders. Committed to continuous improvement and staying current with industry trends and advancements.

## Employment History

**Transportation Manager at Montana Department of Transportation, MT**

May 2023 - Present

- Successfully reduced annual transportation costs by 15% through the implementation of strategic route optimization and efficient scheduling, resulting in a total savings of \$1.2 million for the Montana Department of Transportation.
- Led the development and execution of an improved fleet maintenance program, resulting in a 20% reduction in vehicle downtime and repair expenses, thereby saving the department \$500,000 in annual maintenance costs.
- Coordinated the successful completion of a major highway project on time and within budget, involving the management of over 200 staff members and a total project cost of \$50 million, contributing to improved traffic flow and safety for Montana residents.
- Implemented a comprehensive safety training program for all transportation staff, resulting in a 30% reduction in workplace accidents and injuries, leading to a safer work environment and a 10% decrease in workers' compensation costs.

**Assistant Transportation Manager at Watford City Transport, MT**

Jul 2018 - Mar 2023

- Successfully oversaw the transportation of over 50,000 tons of cargo annually, ensuring timely and efficient delivery to clients while maintaining a 98% on-time delivery rate.
- Implemented new route optimization software, resulting in a 15% reduction in fuel costs and saving the company \$200,000 annually.
- Trained and supervised a team of 40 drivers, leading to a 25% decrease in safety incidents and a 20% increase in overall driver performance ratings.
- Streamlined the vehicle maintenance program, reducing downtime by 30% and saving the company \$150,000 in repair and replacement costs annually.
