EMPLOYMENT HISTORY

● Veterinarian at Arizona Animal Hospital, AZ

May 2023 - Present

- Successfully treated over 1,500 pets with various medical conditions, including surgeries, vaccinations, and preventative care, contributing to a 95% recovery rate and high client satisfaction.
- Developed and implemented a comprehensive dental care program that improved the oral health of over 700 pets, resulting in a 60% reduction in dental-related issues and increased overall wellness.
- Led a team of 6 veterinary professionals in providing emergency care to over 100 critically injured animals, with an 85% survival rate and effective communication with pet owners during the process.
- Conducted 50 educational seminars for pet owners, covering topics such as preventative care, nutrition, and behavioral training, leading to a 30% increase in client compliance with recommended care plans.

● Associate Veterinarian at Pima North Animal Hospital, AZ

Aug 2020 - Apr 2023

- Successfully diagnosed and treated over 1,500 pets in a single year, resulting in a 95% recovery rate and contributing to the hospital's overall growth in revenue by 20%.
- Implemented a new preventive care program for over 800 patients, which led to a 30% decrease in common illnesses and a 15% increase in client satisfaction rates.
- Mentored and trained 5 new veterinary technicians and assistants, improving overall team efficiency by 25% and reducing staff turnover by 10% during their tenure at Pima North Animal Hospital, AZ.

● Veterinarian Intern at East Valley Veterinary Clinic, AZ

Jul 2017 - Jun 2020

- Successfully diagnosed and treated over 150 cases of various illnesses in pets, including complex conditions such as diabetes, kidney disease, and heartworm infections, contributing to a 95% recovery rate for patients under my care.
- Performed over 50 surgical procedures, including spays, neuters, dental cleanings, and mass removals, while maintaining a 98% success rate and significantly reducing recovery times for patients.
- Assisted in the management of a vaccination campaign that provided essential vaccinations to over 500 pets in the East Valley community, helping to decrease the prevalence of preventable diseases in the area by 30%.
- Developed and implemented a new client education program at the clinic, resulting in a 20% increase in pet owner compliance with recommended treatments and preventive care measures, ultimately leading to improved overall pet health within the clinic's clientele.
