

Kourtni Feery

Information Security Analyst

Profile

As an Information Security Analyst with over two years of experience, I successfully executed a wide range of cybersecurity initiatives to protect sensitive data and mitigate potential threats. I consistently demonstrated my expertise in vulnerability assessment, risk management, and security infrastructure design. My strong analytical skills enabled me to identify security gaps and implement effective solutions, while my ability to collaborate with cross-functional teams ensured smooth communication and a proactive approach to information security. Through my dedication and commitment to staying current with industry best practices, I played a crucial role in safeguarding critical information assets and maintaining a robust security posture for the organization.

Employment History

Information Security Analyst at IronNet Cybersecurity, DE

Jan 2023 - Present

- Implemented a comprehensive security strategy that reduced cyber threats by 45% within the first year, protecting sensitive data and ensuring compliance with industry regulations.
- Conducted thorough risk assessments and vulnerability testing on over 200 systems, leading to the identification and remediation of critical security gaps, and increasing overall system security by 30%.
- Developed and delivered cybersecurity training to over 100 employees, resulting in a 60% reduction in security incidents caused by human error and increased employee awareness of best practices.
- Managed the successful response to 15 major cyber incidents, minimizing potential damage and ensuring business continuity, with an average recovery time of less than 48 hours.

Junior Information Security Analyst at Securicon, DE

Jul 2021 - Dec 2022

- Implemented a comprehensive vulnerability management program that resulted in a 35% reduction in identified security risks within the first six months.
- Developed and executed a security awareness training program for over 250 employees, leading to a 40% decrease in reported phishing incidents.
- Conducted regular penetration testing and security assessments, identifying and mitigating over 50 critical vulnerabilities in the company's network infrastructure.
- Managed and resolved over 100 cybersecurity incidents, minimizing potential damage and reducing system downtime by an average of 25%.

Certificates

Certified Information Systems Security Professional (CISSP)

Aug 2021
