

Ralinda Monnat

Web Developer

Profile

I am a highly motivated and creative Web Developer with over 1 year of experience in the IT industry. I have expertise in HTML, CSS, JavaScript, PHP, WordPress, and other web development tools. My greatest strength is my ability to think outside the box when developing websites. I am also skilled in working with various content management systems such as Joomla and Drupal. I have a passion for web development and I am continuously looking for ways to improve my skills. I am a strong communicator, with the ability to work both independently and as part of a team.

Employment History
