Profile

Results-driven Warehouse Selector with 1 year of experience in efficiently and accurately picking and preparing customer orders in a fast-paced warehouse environment. Proficient in using warehouse equipment, inventory management systems, and maintaining a clean and safe work environment. Demonstrates strong teamwork, organizational, and communication skills, contributing to improved operational efficiency and customer satisfaction.

Employment History

Warehouse Selector at United Natural Foods Inc. (UNFI), WA

Mar 2023 - Present

- Successfully increased picking efficiency by 15% through the implementation of an optimized picking route and improved inventory management system, resulting in a reduction of order processing time and overall warehouse costs.
- Effectively maintained a 99.5% accuracy rate in order fulfillment over a one-year period, contributing to increased customer satisfaction and a reduction in returns due to incorrect items being shipped.
- Consistently exceeded productivity targets, achieving an average pick rate of 120 cases per hour, which was 20% above the company standard, leading to an overall improvement in warehouse throughput and performance.

Warehouse Selector Trainee at Sysco, WA

Jul 2022 - Jan 2023

- Successfully increased picking efficiency by 15% within the first three months, resulting in reduced overtime costs and improved order fulfillment rates.
 - Streamlined the warehouse sorting process by implementing a new inventory management system, reducing order processing time by 25% and increasing overall productivity.
 - Consistently maintained a 99.5% accuracy rate in order selection, significantly reducing errors and customer complaints related to order discrepancies.
 - Trained and mentored four new warehouse selector trainees, contributing to the team's overall performance improvement of 20% within six months.
-
