EMPLOYMENT HISTORY

● Web Application Developer at Inclind Inc., PA

Apr 2023 - Present

- Developed a high-traffic e-commerce website for a major retail client, resulting in a 35% increase in online sales and a 50% reduction in page load time.
- Successfully migrated a large-scale web application to a more efficient and scalable cloud-based infrastructure, reducing server costs by 40% and improving overall performance by 25%.
- Implemented a comprehensive security overhaul for a vulnerable web application, leading to a 90% reduction in potential security threats and zero successful attacks over a 12-month period.

● Associate Web Application Developer at Chariot Solutions, PA

Aug 2022 - Feb 2023

- Implemented a new responsive web design for the company's main website, resulting in a 35% increase in mobile traffic and a 25% reduction in bounce rate.
- Developed and launched a custom web application for a major client, leading to a 20% increase in their online sales and a 15% improvement in customer satisfaction ratings.
- Optimized the performance of several web applications by implementing advanced caching techniques, reducing page load times by 40% and server resource usage by 30%.
- Collaborated with a team of developers to successfully complete a large-scale migration of the company's web infrastructure to a cloud-based platform, improving scalability and reducing hosting costs by 50%.
