Employment History

Web Architect at Grid4 Communications, MI

May 2023 - Present

- Developed a scalable and robust web architecture for Grid4 Communications' main website, resulting in a 35% increase in site traffic and a 20% reduction in page load times.
- Successfully led a team of 6 developers to redesign and implement the company's customer portal, improving user experience and increasing customer satisfaction by 25%.
- Optimized the website's performance by implementing advanced caching strategies and CDN integration, reducing server response time by 40% and saving the company \$15,000 annually in hosting costs.
- Spearheaded the migration of the company's web infrastructure to a cloud-based platform, streamlining deployment processes and reducing maintenance costs by 30%.

Associate Web Architect at CQL, MI

Jul 2018 - Apr 2023

- Led the development and launch of a high-traffic e-commerce website, resulting in a 25% increase in online sales and contributing to a 15% overall revenue growth for the client in the first year.
- Successfully managed a team of developers in the migration of a major client's website to a new CMS, leading to a 40% reduction in content management time and a 20% improvement in website performance.
- Collaborated with the design team to create and implement a responsive web design framework, streamlining the development process for all future projects and reducing average project completion time by 30%.
- Developed and implemented a comprehensive SEO strategy for a local business, leading to a 50% increase in organic search traffic and a 20% increase in online leads within six months.
