Profile

Dedicated Youth Care Worker with 1 year of experience in providing support, guidance, and mentorship to at-risk youth. Proficient in creating safe and nurturing environments while implementing individualized care plans. Strong communication and interpersonal skills, adept at fostering positive relationships with both youth and their families. Committed to promoting the holistic development of young people and helping them achieve their full potential.

Employment History

Youth Care Worker at Lutheran Social Services of Wisconsin, WI

Feb 2023 - Present

- Successfully managed a caseload of over 50 at-risk youth, providing individualized care plans and interventions that led to a 60% improvement in behavioral and emotional outcomes within one year.
- Developed and facilitated weekly group therapy sessions for 30+ adolescents, resulting in a 45% reduction in incidents of self-harm and a 35% decrease in substance abuse among participants.
- Implemented a comprehensive life skills program for 25 young adults transitioning out of foster care, with 80% of participants securing stable housing and employment within six months of program completion.
- Collaborated with local schools and community organizations to create a mentorship program that matched 40 at-risk youth with positive role models, contributing to a 50% decrease in truancy rates and a 30% increase in high school graduation rates.

Assistant Youth Care Worker at Wisconsin Department of Children and Families, WI

Sep 2022 - Jan 2023

- Successfully managed a caseload of over 50 at-risk youth, providing individualized care plans and support services that contributed to a 75% improvement in their overall well-being and stability within the community.
 - Developed and implemented a comprehensive life skills program for 30+ adolescents in foster care, resulting in a 90% increase in their ability to manage daily tasks and responsibilities independently upon aging out of the system.
 - Coordinated and facilitated weekly group therapy sessions for 20+ youth dealing with trauma and mental health issues, leading to a significant reduction in negative behaviors and a 60% increase in positive coping strategies among participants.
